HOW TO USE THE APP TO RECTIFY MISSING, ILLEGIBLE OR INCORRECT AUSTRALIAN SHIPPING MARKS

Use case for rectifying missing, illegible or incorrect shipping marks.

A rejection notice will be issued for cartons that have a missing or illegible shipping mark. If the load is uploaded into Meat Messaging with all carton barcodes attached to the consignment, you will be able to provide this document as evidence to the inspector for re-stamping.

How to remark Australian cartons in the U.S.A. on PC/desktop and phone app.

These instructions are related to FSIS Directive 9900.5 Rev. 2 that was released on the 21st of December 2020. Section E – Procedures for Correcting Shipping Marks when Using Barcodes, Part 4 / b states "A report provided by the exporters that links the barcodes to the lot identified on the foreign inspection certificate". Meat messaging provides that report by searching a single barcode and returning the full consignment list of carton barcodes. Refer to: https://www.fsis.usda.gov/sites/default/files/media_file/2021-02/9900.5.pdf.

IMPORTANT: The establishment must be FSIS listed to use this directive to remark missing shipping marks. View this full list first to check the establishment is eligible to use the protocol: https://reports.meatmessaging.info/endorsed-est

Note: the meat messaging app is a progressive web app (PWA) that must have browser support. Your device needs to have https://app.meatmessaging.org whitelisted by your establishment for use as a barcode scanning tool.

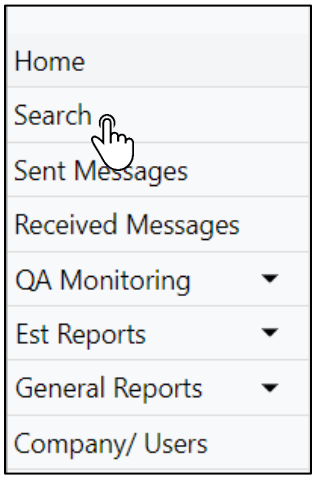

Step 1:

Log in to Meat Messaging https://www.meatmessaging.org with your usercode and password. If you do not have your username or password, please email info@meatmessaging.com

Step 2:

On the side panel bar, click '**Search'.**

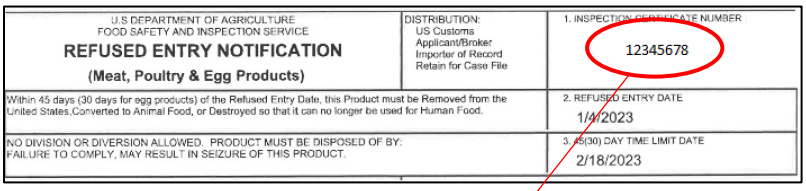

HOW TO USE THE APP TO RECTIFY MISSING, ILLEGIBLE OR INCORRECT AUSTRALIAN SHIPPING MARKS

Step 3:

In the search bar, enter the consignment's:

- Health/Inspection Certificate Number
- Shipping Mark Number
- Carton Barcode Number
- Pallet Barcode Number.

NOTE: The consignment can be found using the inspection certificate number on the Refused Entry Notification.

U.S DEPARTMENT OF AGRICULTURE
FOOD SAFETY AND INSPECTION SERVICE
REFUSED ENTRY NOTIFICATION
(Meat, Poultry & Egg Products)

DISTRIBUTION:
US Customs
Applicant/Broker
Importer of Record
Retain for Case File

1. INSPECTION CERTIFICATE NUMBER: 12345678

Within 45 days (30 days for egg products) of the Refused Entry Date, this Product must be Removed from the United States,Converted to Animal Food, or Destroyed so that it can no longer be used for Human Food.

2. REFUSED ENTRY DATE: 1/4/2023

FAILURE TO COMPLY, MAY RESULT IN SEIZURE OF THIS PRODUCT.

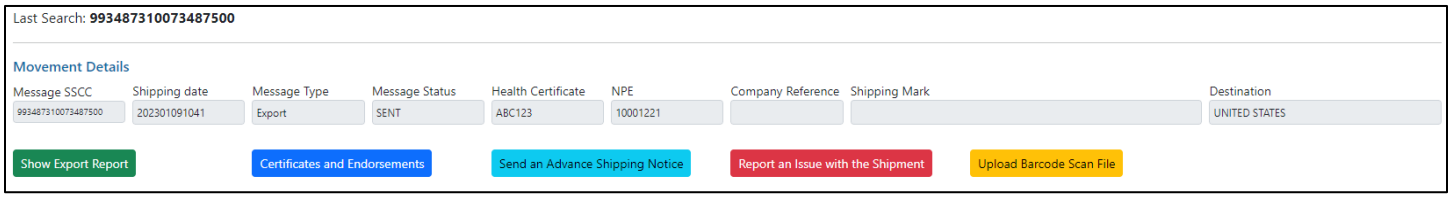

3. 45(30) DAY TIME LIMIT DATE: 2/18/2023

Step 4:

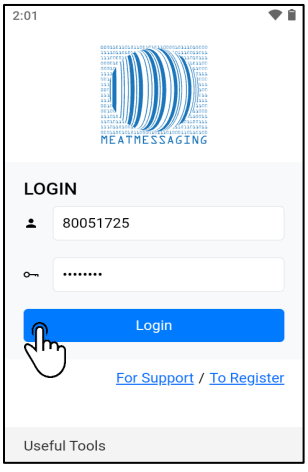

If the shipment exists in Meat Messaging, the search will return a result containing the shipment Movement Details including:

- Message SSCC
- Message Type
- Destination, etc.

Step 5:

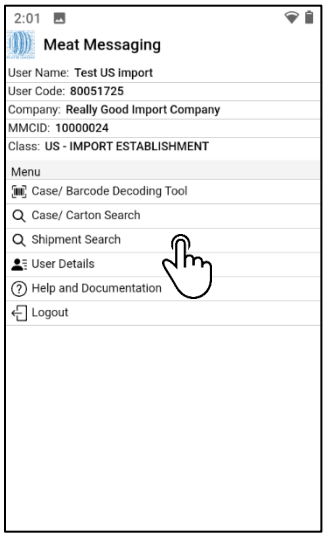

After confirming the shipment exists in Meat Messaging on the website, open the Meat Messaging app on the scanning device – https://app.meatmessaging.org – and login with your usercode and password (the same credentials used in Step 1).

HOW TO USE THE APP TO RECTIFY MISSING, ILLEGIBLE OR INCORRECT AUSTRALIAN SHIPPING MARKS

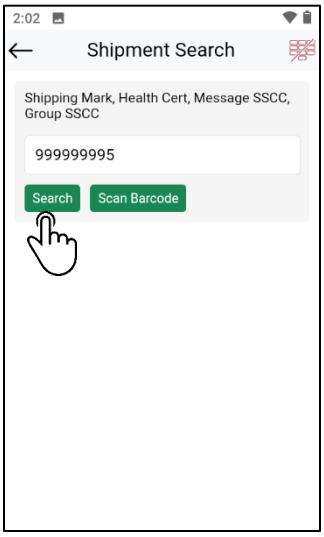

Step 6:

From the home page of the app, select the '**Shipment Search'** menu option.

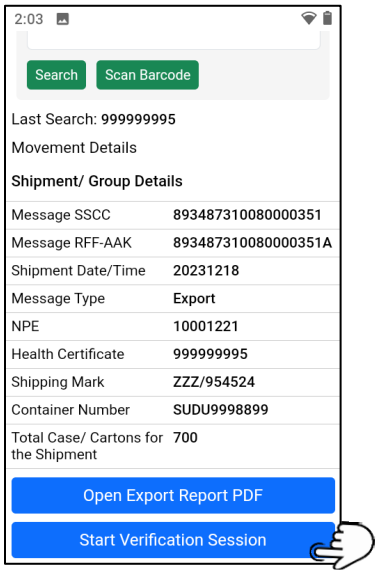

Step 7:

Input either the Health Certificate number or shipping mark for the required shipment in the search field – click '**Search'.**

Step 8:

After verifying the movement details match the same results returned in step 4, select the '**Start Verification Session**' button.

Step 9:

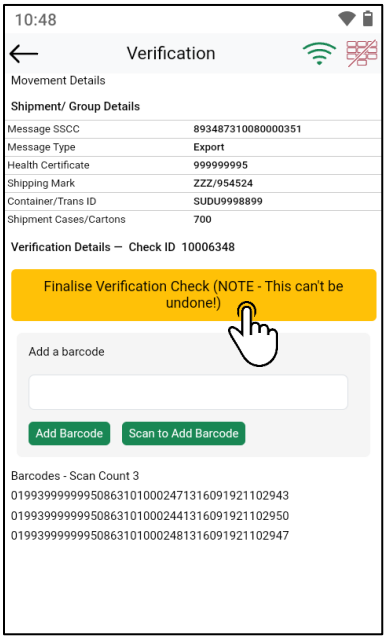

Walk into the chiller. Use the app to scan barcodes of the case/cartons that have missing or illegible shipping marks.

Step 10:

Once you have scanned all the case/cartons with issues, click **'Finalise Verification Check'** to finalise the import inspection. ***Note: this cannot be undone.***

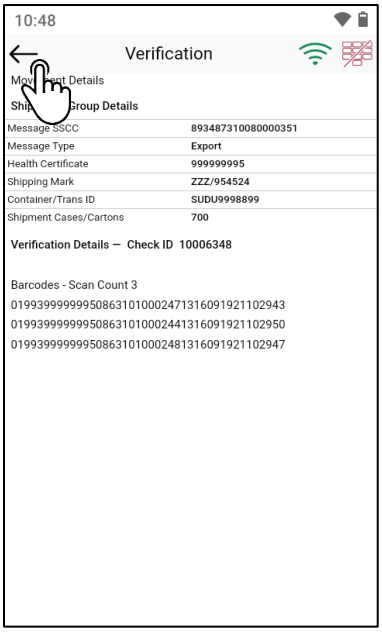

Step 11:

When the verification session has been finalised, you will see a confirmation screen displaying the details for the shipment, the scanned barcodes, and the verification check ID.

Exit out of this confirmation page by clicking the back button on the top left of the screen.

You can now close the app, as the verification check is complete.

HOW TO USE THE APP TO RECTIFY MISSING, ILLEGIBLE OR INCORRECT AUSTRALIAN SHIPPING MARKS

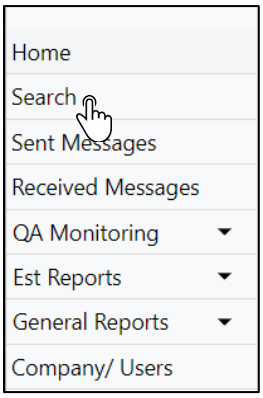

Step 12:

On your PC, navigate back to https://www.meatmessaging.org and log in with your usercode and password.

Step 13:

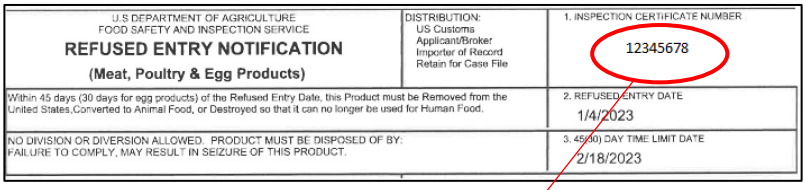

On the side panel bar, click **'Search'.**

Step 14:

In the search bar, for the shipment you have just competed the verification session for, enter the:

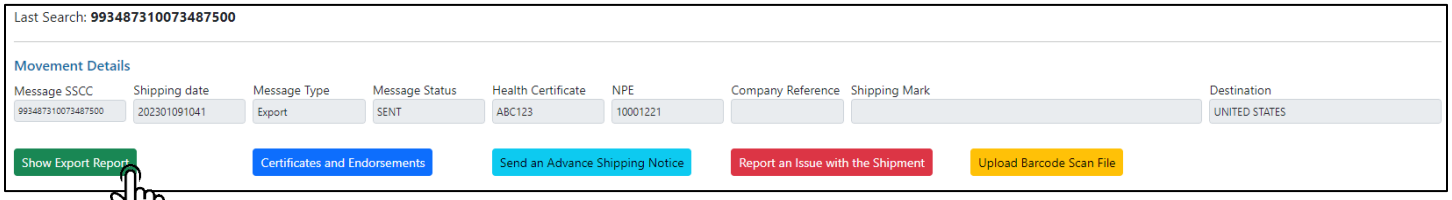

- Health/Inspection Certificate Number
- Shipping Mark Number
- Carton Barcode Number
- Pallet Barcode Number.

Step 15:

Confirm the search results are for the correct shipment (the shipment you just completed the verifcation session for), then click **'Show Export Report'.**

Step 17:

A. Present the marked report to the FSIS Import Inspection Personnel as evidence that the cases that require remarking are part of the consignment for that Health Certificate, as outlined in FSIS Directive 9900.5 Rev. 2. Section VII. LOT DISPOSITIONS Part E.
B. FSIS IPP are to verify that the barcode for each shipping unit matches the documentation provided. The numbers after the (21) identify the unique shipping unit number.
C. FSIS IPP are to permit import inspection establishment personnel to apply the shipping mark to the shipping units if the documentation links the barcode to the foreign inspection certificate.

Step 18:

Once the cartons are remarked, the product can be released into commerce.
